Delivering decision-ready AI across industries

**GOVERNMENT | DEFENSE | FINANCE | TELECOMS | SUPPLY CHAIN**

AI products and solutions for high-stakes decisions

seekrFlow™

Build, customize, and scale accurate and explainable AI in one complete, secure operating system.

CORE CAPABILITIES

- AI agents trained on your internal data
- Model-agnostic explainability to understand, contest, and improve model accuracy
- Flexible deployment across cloud, on-prem, or at the edge
- Agentic data preparation to accelerate time-to-value with AI

SeekrGuard

SeekrGuard lets you test, evaluate, and certify AI models for trust using your organization's context as the benchmark, enabling audit-ready decisions across selection, tuning, and ongoing operations.

SeekrIntel

SeekrIntel turns raw data into actionable intelligence in seconds, uncovering and mapping hidden links to illuminate criminal, terrorist, financial, and supply chain networks and power smarter, faster investigations.

SeekrGeo

SeekrGeo delivers explainable geospatial intelligence by reasoning across multimodal earth observation and SAR data, enabling trusted change detection, risk assessment, and infrastructure monitoring.

Deploy accurate, explainable AI powered by your data

☑ **FRAUD DETECTION**   ☑ **PREDICTIVE MAINTENANCE**   ☑ **ENVIRONMENTAL MONITORING**   ☑ **HR ONBOARDING AGENT**   ☑ **CYBERSECURITY**

The Seekr Difference

Built for environments where failure isn't an option

Seekr is a leader in explainable and trustworthy artificial intelligence designed to power mission-critical decisions in enterprises, government, and regulated industries. We provide secure, auditable AI solutions tailored to sectors where transparency, accuracy, and compliance are paramount.

**SOC 2 TYPE II COMPLIANT | FLEXIBLE, SOVEREIGN, SECURE DEPLOYMENT |
3X MORE ACCURATE MODEL RESPONSES | 6X GREATER BUSINESS RELEVANCE**
